Use these quick project ideas with Fiona Sandwich National Park patterns. Each of the squares is a 4.5" National Park block. Where you see 2 4.5" blocks next to each other, you can substitute for a 4.5 x 9" block. Each seam includes a 1/4" seam allowance.

For all patterns piece as follows: sew the 4.5" blocks together to create a 4.5 x 9 block unit, then sew short strips to the 4.5" block units. Press, then sew the longer strips. Press.

Create a quilt sandwich (top, batting, and backing, with top and backing facing out), then quilt if desired. Trim and bind.

Bind using your preferred binding method. Post to social media using #fionasandwich
