## Fabric Selection Tips:

Below are the closest color matches from Kona solids. For ease of selecting colors, consider using "Kona Cotton - Multi Digitally Printe Panel". There are differences between digitally printed and dye lots; please use the color suggestions as suggestions and not gospel. You don't need to rush out a purchase each solid I suggest! I would suggest purchasing the panel, and referring to the colors listed if you are stuck...or use the internet to search for the name and number (example: Kona 196 Blue Jay). Then use your imagination! Select fabrics in your stash! Feel free to change the colors to match your experiences in a park.
In homeopathy, there is a saying, "similimus similimum" - it's the law of similars. The law is not "exactamus exactimum":) Choose SIMILAR fabrics, not exact fabrics!

Creativity Declaration: I am a creative person! I have more creativity than I know what to do with! I separate myself from the lies of "I can't" that my mind has believed in the past!

This block is $24.5^{\prime \prime}$ squares put together to make a larger $9^{\prime \prime}$ long rectangle. You may choose to use just one square to create a section, or put several together to make a long fence! For mine, I wanted the illusion of a fence weaving back and forth, so for one block I used a darker color for the lateral fences, and the other I used a lighter color.
